## ART-F

### EXAMINATION AND AWARD OF DEGREE/DIPLOMA

#### EXAMINATION SYSTEM

University has adopted Fully Flexible Credit System (FFCS). Through this, the student can register for courses according to their interest and academic ability. FFCS system allows students in deciding their academic plan and permits them to alter it as they progress.

Each programme has basket of courses classified as University Core, University Elective, Programme Core and Programme Elective. At the end of the programme, each student will be expected to have well defined credit distribution in various domains. Ample options will be given to students to choose inter-disciplinary courses, which help them to develop additional skills.

#### Assessment and Evaluation

The performance of a student in a theory / lab course is assessed through a series of continuous assessment test (CAT), weekly quizzes, assignments etc. followed by Semester End Exams (SEE) Theory & Practical. The total marks obtained are out of 100 and the same are converted into grades in 10-point scale.

The student at the end of the semester will be assigned a Letter Grade based on his / her performance over the semester in all the assessment carried out in that course. The letter grade and its grade point indicate the results of both qualitative and **quantitative assessment of the students' performance in a course. A combination of Absolute and Relative Grading System is adopted in converting marks to grade.**

#### Grading System

In a class of students up to 30, the absolute grading is used. In a class more than 30 students, Relative grading is applied to all theory courses. For courses having no theory / tutorials but only lab / practical, or for courses like Seminar / Mini-project, absolute grading method is adopted. Relative grading is adopted in lab / practical embedded for the courses.

The marks obtained by a student of a class of more than 30 students in a Course Unit are transformed into a normal distribution curve by using Statistical Method in accordance with a prescribed table to ensure the uniformity in spread of scores regardless of the nature of curricular areas.

The mean ( $\bar{x}$ ) and the standard deviation ( $\sigma$ ) of marks obtained of all the students in a course are calculated and the grades are awarded to a student depending upon the

marks and the mean and the standard deviation as per prescribed standards.

### Semester / Annual Grade Point Average (SGPA / AGPA):

The semester / annual performance of the student is indicated as SGPA / AGPA at the end of every semester / year. SGPA / AGPA is the weighted average of Grade Points of all letter grades secured by a student for all the course units in the semester / year. The formula for computing SGPA / AGPA is as under:

$$\text{SGPA / AGPA} = \frac{\sum C_i P_i}{\sum C_i}$$

where  
 $C_i$  = Course Credit of the course of a semester/ Year  
 $P_i$  = grade Point earned by student  
 $i = 1,2,3, \dots n$ , represents the number of courses passed in the semester/year.

### Cumulative Grade Point Average (CGPA)

The CGPA is used to describe overall performance in all courses in letter grades which a student has obtained. It is weighted average of grade points obtained by him/her in all semester / years.

$$\text{CGPA} = \frac{\sum C_i P_i}{\sum C_i}$$

where  
 $C_i$  = Course Credit of the course of a semester/ Year  
 $P_i$  = grade Point earned by student  
 $i = 1,2,3, \dots m$ , represents the number of courses passed till that semester.

### Minimum Academic Requirements:

- (1) **The student must score a minimum Grade 'E' in each course unit.**
- (2) The minimum passing SGPA/AGPA for each semester / year is 5.0 for all Programmes.

#### GALGOTIAS STUDENT COUNCIL

The Student Council has been instrumental in nurturing growth from secret vectors that no amount of academics could ever reach. Due to the fact that it is not an independent student union, but rather an extension of the University's administration and academic activities, the Galgotias Institutional Student Council provides real integration into university life while still adhering to established university rules.

The Galgotias University Student Council offers a wide range of activities, and there is no limit to how much you may learn and develop. Clubs in the Council can be grouped into numerous "Societies" where each club has a place. If you're interested in literature, you'll fit right in with any of the clubs under the Literary Society. The Technical Society would be a great place for someone with a technical bent.

*Report (2020-21):*

Allbooked was founded in the early march of 2020. It initially emerged as an idea from respected Ms. Aradhana Galgotia. The club was recognized and declared officially a part of GUSC in august 2020. We gained many valuable members directly after the orientation session of the 2020-24 batch. We kept our monthly book reads and discussion meetings going on. Surprisingly, we were successfully able to arrange a talk show with a wonderful author Mr. Anirban Das. [18/10/2020]

This is Liza, the club head of G-post.

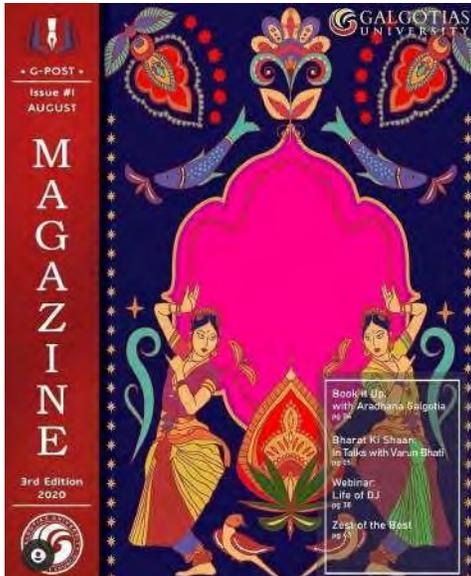

The year 2020 started with lots of ups and downs but what kept us moving forward was the various club events and activities organized by different clubs of Galgotias University.

Here's the date wise report of events and activities by Gpost for the year 2020-2021.

1. We organized an event for Independence day on 15th of August, 2020. That was basically a storytelling event and was conducted on the social media platform, Instagram. The participants had to send something related to independence day, it could be a poem, or a write-up or a report. We got lots of entries and out of which some of them were posted on our Instagram feed and some of them were posted on our Instagram stories.

- Continuing with the independence day theme. Our August edition of the magazine was based on this. Entire magazine was on the theme of Independence day. We featured quotes and write-ups on our August edition as well. The Indian traditional theme rocked on our August edition which got released on 13th September 2020.

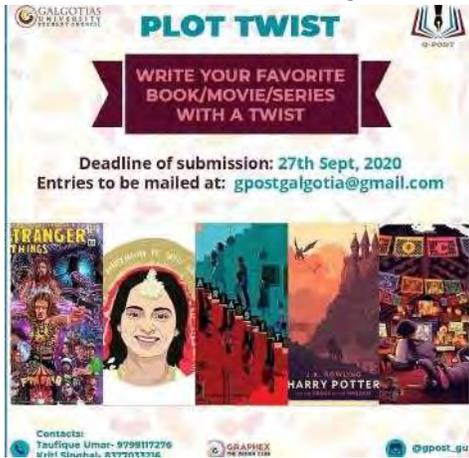

- On 29th August, an event was conducted, named as "Mimic the Snippet". In this event the participants were provided with two links of the snippets from famous TV series and they had to write a report of the snippet they chose between the two in their own creativeness within 100 to 150 words. The club witnessed 21 participants competing and out of which agrim Jain, Shubham Kumar and Liza fatwani won 1st, 2nd, 3rd position respectively. A special mention was given to Sumit Gupta as well.

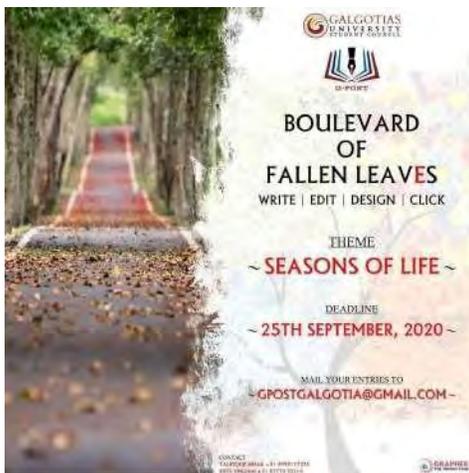

- On 27th September, we announced another activity named "plot twist". In "plot twist", the participants who are fond of reading lots of books and love watching movies

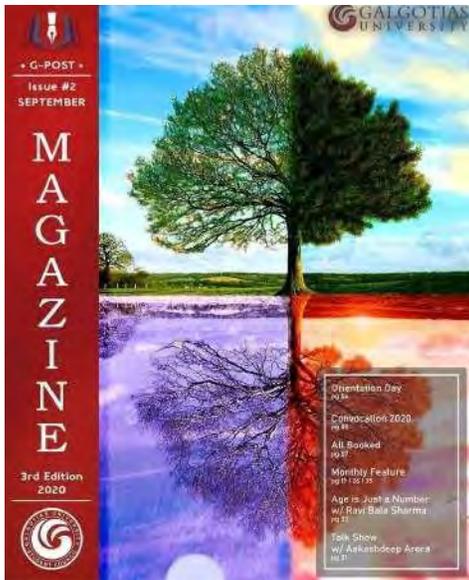

participated. The event was based upon ideas about a movie or a book that could have been ended in a different way. The event gave participants a chance to write an ending of any of their favourite series on movie with the ending they wanted (alternate ending).

5. For our September edition, online activity was conducted by Gpost, where we allowed artists on Instagram to get a chance to get their write-up featured on our magazine. This included photographs, write-ups, poems, Arts, etc. We got a good number of entries for it.

6. On 18th October, 2020. The September edition got published. With the theme, season of life. The magazine was full of creativity and fun which everyone really liked.

7. On 25th October 2020, Gpost announced Halloween as the theme of the month for the October edition. The activity was conducted online in which the participants have to submit their artwork related to Halloween. This could be a diy craft or a makeup. There were lots of entries for the same.

8. On 19th November 2020, we launched our 'spooky' October edition. The magazine covered all the events with entries from the participants with their artworks. The magazine was a successful work with good teamwork.

9. On 18th March 2021, Gpost auditioned for new members and announced 14 deserving and creative members out of them.

### *HUMANS OF GALGOTIAS*

[Every Story Matters]

Hi everyone, this side Aditya and Mrigank , I hope you all are safe and doing great basically we keep our Intro brief and to the point.

HUMANS OF GALGOTIAS is a team of storytellers who concentrate on the journey of individuals, showing our followers that each and every person is unique, inspirational, and relatable.

As Humans OF GALGOTIAS began as photography project, the initial goal was to photograph GALGOTIANS in the campus of GALGOTIAS, and create a catalogue of the GALGOTIANS.

**“Somewhere along the way, we began to interview our subjects in addition to photographing them. And alongside their portraits, we’d include quotes and short stories from their lives.”**

As we observe in our day to day life many of our friends and colleagues having the different & interesting sight of view of seeing the people & things around them, So we covers the short stories of their lives in the form of posts, audios and many more **ways...**

And we are also preparing for the podcasts **soon...so** that reachability increases.

Humans OF GALGOTIAS, inspired by Humans of New York & Humans of Mumbai, and covers the story of every other GALGOTIAN, After all, every story matters. Don't they?

#### EXAMPLE STORY:

**“Growing** up, I was the closest to Babaji. He never discriminated between me and my brothers.

Infact, he ensured that if I had to learn basic household chores, my brothers did too. When people questioned this, **he'd** simply say that all his grandkids need to know basic survival skills.

Even when it came to our education, he was never biased. He was as concerned about my career as my **brothers'**. **He'd** tell me, '**Make** sure you study hard and stand on your own **feet!**' **He'd** tell myparents, '**Bahut** hoshiyar hai, aagey **jayegi!**'

And with his words, he instilled a feeling of self confidence in me; he made me believe that no dream is unachievable!

And honestly, he was my biggest support system. Whenever **I'd** want permission for a trip with my friends, **I'd** first talk to Babaji. And he would then convince Maa and Papa. He even helped mesneak out for my first ever sleepover! Man, the two of us were a handful; Babaji always had my back.

Even when I was to marry someone who **wasn't** from my community, he was so accepting! And because of the **progressive beliefs he'd instilled in everyone, no one from my family opposed. But** honestly, he was the happiest when I started working as a teacher—he always wanted me to stand on my own feet!

But a few years ago, Babaji lost his vision. That was tough; he was so used to doing things for **himself that asking for help didn't come easy. Still, he always had a smile on his face. He'd even** figured a way to move around without support. But somewhere I think he knew his end was near. So, 6 months ago, he called me and said, '**When** my time comes, with your brothers, you will also **light my pyre!**' I just dismissed him saying, '**Aap kahin nahi jaa rahe!**' So, **he'd reiterate the same** thing to Papa. He even said that people might question this, but **it's** what he wants.

And so, when Babaji breathed his last 5 months ago, I, along with my brothers, lit his pyre. It was the first time a woman in our family participated in a last rites ceremony. It was a painful day, but I was glad I got to honor his last wish, and I hope I can carry his legacy forward. When the time comes, I want to raise my kids the way Babaji raised me— without any difference between '**beta'** and '**beti'**."

In the first audition after far too many months, the club opened doors to new members through an offline gathering in Moot Court A-Block, sharing venue alongside the Sponsorship Team, AllBooked and G-Post.

In the second part of the club audition, conducted online on May 10 via Google Meets, 11 newmembers stood out and were announced as new additions to the Lingo Freaks family on May 14 via Instagram. The same format of live interview for speakers and on-spot written submissions for writers, was followed.

## Additional Events

For several reasons, there may be moments when it is not possible to conduct an event successfully in the ways a club expected to. Indeed, there were occasions in the past academic year when Lingo Freaks put in the work, prepared for the event as it hoped to, and organized everything with high hopes of pulling off a successful event, but a wide gap between registrations and active participations left the event unsuccessfully closed off without any winner. Below are a few events conducted by Lingo Freaks in our opinion, and involved the hard

work of our fellow members, but could not be, in good conscience, included with the other events of this report.

- *September 24: Portray and Display*

On September 22, 22 registered individuals were sent a prompt involving a fictional character in an absurd setting, such as **“Janice meets Geet from Jab We Met”** & **“Tommy Shelby in Galgotias University”**. Prompts were distributed based on the given person’s own preferences submitted by them in the registration form.

On September 24, event day, the participant would do their best in channelling that character in the situation provided, either in English or Hindi, for 5 minutes - with aid of a pre-written script if needed. The objective of the event was allowing students to engage with some of current literature’s best-known characters on a deeper level, while serving as a light and all-inclusive event for the university.

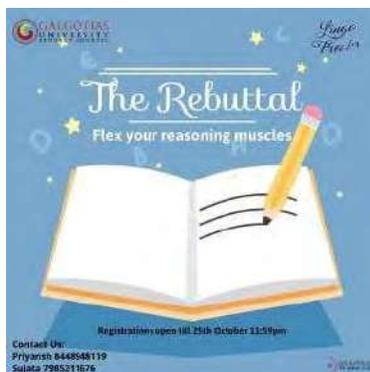

Due to low participation, the event could not be concluded.

- *October 26: The Rebuttal*

As an exercise in reasoning and rhetoric, the event was a written submission-based debate event, wherein 19 registered members were each sent a carefully chosen essay, with the instructions to argue against its points with their own piece. After closing submissions at midnight, October 29, the winner and runner up positions were to be announced via email and Instagram.

Due to low participation, the event could not be concluded.

**DESIGN & COMMUNITIES-** This part was covered by Aryendra. He said that product designers are concerned with both the aesthetics and functionality of a product, and there are many similarities in the way they work. The next part was about the various technical communities. He introduced the audience to Google's largest technical community - Google Developer Groups (GDG) , Developer Student Club (DSC). He stated that these communities are **"by the people, for the people, from the people"**. Finally, he concluded the session with a quote - If you meet the right people at the right time, you will always land up at the right place!

**CONCLUSION-** The event was a great success. The students were really encouraged by the healthy interaction they had with the team and everyone present. The club head was personally present there all the time interacting with each and everyone present there.
